

The E-Class Coupé

Mercedes-Benz

A perfect example of the new
Mercedes-Benz design philosophy.

It is the embodiment of ultra-modern style and refined sportiness. With its perfect proportions and athletic style elements, the E-Class Coupé cannot help but draw admiring looks – and does so with subtle grace.

Modern, breathtaking
coupé aesthetics.

The E-Class Coupé combines perfect proportions with sporty highlights.

Impressive spaciousness.

The impression of spaciousness is exceptional for a coupé. The E-Class Coupé is therefore a perfect, stylish touring car for four people – entirely in the tradition of exclusive Gran Turismos.

Mercedes-Benz

An unforgettable look.

A refined diamond radiator grille and front bumpers reaching far downwards create a striking front design and underscore yet again the hallmark Mercedes-Benz coupé look. The illuminated blue highlights in the MULTIBEAM LED headlamps are fascinating and highly distinctive.

Its styling: the embodiment of sensual purity.

Convenient to use: Touchpad with controller.

The touchpad allows intuitive control of the functions of the multimedia system with one- or two-finger movements (multi-touch). It supplements voice control and the Controller as an input option and is integrated into the latter's handrest.

COMAND Online.

COMAND Online leaves nothing to be desired where infotainment, navigation and communications are concerned. Information is shown on the 31.2 cm (12.3-inch) high-resolution media display. Thanks to Live Traffic Information – traffic data almost in real time – the hard-disc navigation system quickly takes you to your destination.

Head-up display.

The head-up display provides the driver with important information, without the driver having to take his/her eyes off the traffic. It projects a virtual image measuring approx. 21 x 7 cm into the driver's field of vision, which appears to float around 2 metres in front of him/her above the bonnet.

MULTIBEAM LED.

The MULTIBEAM LED headlamps allow the high beam to be left on without dazzling other road users. Individually controllable LEDs direct the light precisely so as to blank out other vehicles whilst illuminating the surroundings with almost daytime-level brightness. A further distinctive design feature: the illuminated blue highlights within the headlamp.

Get in and feel at home.

With its pleasantly indirect light, the ambient lighting creates a unique sense of well-being throughout the interior. Choose exactly the lighting mood you desire with a choice of 64 colours. The ambient lighting is based entirely on LED technology and can be conveniently adjusted, dimmed or switched off via the multimedia system. The temperature settings can be visualised by means of the illuminated air vents.

Three individual climate zones with THERMOTRONIC.

Each passenger in the E-Class Coupé can enjoy their own, personal sense of well-being: with three climate zones and three climate styles, the automatic climate control system adjusts to suit personal preferences. Driver and front passenger can set their preferred temperature and air distribution for their own seats. The temperature for the rear can be adjusted separately.

A particularly attentive touch: the seat belt extender.

The standard-fit seat belt extenders make it easier for the driver and front passenger to put on their seat belts. After getting into the car, the seat belt is automatically moved into a more convenient position. The seat belt extenders can also be triggered by pressing a button on the centre console.

Burmester® “feel-good sound”.

The Burmester® high-end 3D surround sound system includes 23 specially designed loudspeakers so that you can enjoy a fascinating three-dimensional music experience inside your E-Class Coupé. The sound system delivers a sound quality that is otherwise only produced by luxury home music systems. The 3D sound experience can replicate the acoustics and atmosphere of an opera house or a jazz cellar, for example. The VIP function makes it possible to adjust the sound for each individual seat.

The AVANTGARDE design and equipment line.

The AVANTGARDE exterior is sporty and expressive. It includes large light-alloy wheels, a diamond radiator grille with black pins and design elements in chrome and aluminium. The lowered AGILTY CONTROL suspension, too, emphasises the sporty look. The sporty, luxurious AVANTGARDE interior is characterised by coupé seats with an integral-seat look and upholstery in ARTICO man-made leather/Norwich fabric, a multifunction steering wheel in nappa leather with a 3-spoke design and aluminium trim elements with light crystal grain.

The AMG Line design and equipment line.

The AMG Line Exterior enhances the sportiness of the exterior with a range of perfectly harmonised features – from the dynamic AMG bodystyling and the diamond radiator grille with chrome pins through to the large AMG light-alloy wheels. Hallmark AMG characteristics lend this line visibly and tangibly more sportiness and exclusivity. The equipment includes the multifunction sports steering wheel with a flattened bottom section, the integral-look seats, AMG sports pedals, AMG floor mats and ambient lighting.

The Night Package.

The black features of the Night Package make the exterior even more sporty and expressive. The light-alloy wheels, exterior mirror housings and select chrome trim elements are all in black.

designo – luxury in every detail.

The E-Class Coupé demands the best: your good taste. Your own specification, which may include a special designo paint finish, a variety of trim elements, exclusive upholstery and stylish extras, will lend your vehicle its own individual style and class.

AIR BODY CONTROL.

In combination with continuously variable damping control, the air suspension system ensures ride comfort and dynamic handling on a very high level. The damping at each wheel is adapted to the current driving situation, and can be set for more comfortable or sporty characteristics as required.

The allows the driver to change the vehicle's damping characteristics. There is a choice between Comfort mode with more comfortable damping characteristics and two Sport modes for a sporty, taut damper setup.

Mercedes-Benz Intelligent Drive.

Be it at rush hour, during a long drive at night or on an unfamiliar route – your E-Class Coupé noticeably takes the strain, particularly in stressful situations. This is thanks to a concept that all our vehicles embody and which makes every journey in a Mercedes such an exceptional experience: Intelligent Drive. Because the time you spend behind the wheel is your time. Time for relaxation. Time to replenish your energy. Ensuring that you reach your destination more safely, but also more relaxed.

ENERGISING COMFORT AND EXEMPLARY SAFETY

Active Brake Assist can help to prevent rear-end collisions and collisions with pedestrians crossing the road in front, as well as mitigate the consequences of accidents. It comprises a visual distance warning and an audible collision warning function, braking support appropriate to the situation, and an autonomous braking function.

Blind Spot Assist and Active Lane Keeping Assist can warn the driver visually and audibly of vehicles in the blind spot and of inadvertent lane departures. Active Lane Keeping Assist can help to avoid collisions through brake actuations.

Performing in style.

Every Mercedes-AMG is a masterpiece in its own right, with an unmistakable character. What unites our performance vehicles and sports cars is their irrepressible sporting spirit. Their passion for top performance. It is generated at the point where engineering skill meets a very special attitude: the spirit of AMG. We believe that you have to keep on challenging limits in order to achieve new goals. We accept nothing as a given. Because limits are imposed by people, and it's also people who can overcome them. It's this attitude that enables us to achieve outstanding performance for the race track – and for the road.

Welcome to the world of AMG.

AMG
DRIVING PERFORMANCE

Technical data.

	Diesel engines	Petrol engines
	E 300 d	E 300
Displacement (cc)	1,950 cc / L4	1,991 cc / L4
Rated output ¹ (kW [hp] at rpm)	180 [245] / 4.200 kW [hp] at rpm	180 [245] / 5.500 kW [hp] at rpm
Transmission	Automatic	Automatic
Fuel consumption ⁴ (l/100 km)	5,3-5,01 / 100 Km [2]	7,9-7,9 l / 100 km [2]

The best for the engine:
Mercedes-Benz genuine engine oils.

¹ Information about the rated output according to Regulation (EC) No. 715/2007 in the currently valid version. ² Available temporarily. ³ Electronically governed. ⁴ The stated figures were determined according to the prescribed measurement method. They constitute the "NEDC CO₂ figures" pursuant to Art. 2 No. 1 Implementing Regulation (EU) 2017/1153. Fuel consumption figures have been calculated on this basis. More information about the official fuel consumption and the official specific CO₂ emissions of new passenger cars is available in the publication entitled "Leitfaden über den Kraftstoffverbrauch, die CO₂-Emissionen und den Stromverbrauch neuer Personenkraftwagen" ["Guidelines concerning the fuel consumption, CO₂ emissions and electricity consumption of new passenger cars"], available free of charge at all retailers and from Deutsche Automobil Treuhand GmbH (www.dat.de). The figures are not based on an individual vehicle and do not constitute part of the product offer; they are provided solely for purposes of comparison between different vehicle models. The figures will vary according to the optional equipment selected. ⁵ Information only valid within the European Union. May vary from country to country. ⁶ Determined on the basis of the measured CO₂ emissions, taking into consideration the vehicle mass. Only valid for Germany. For more technical data, please visit www.mercedes-benz.com

Dimensions.

All figures in millimetres. The illustrated dimensions are mean values. They are valid for vehicles in basic specification and in unladen condition.

SPORT — F O R — GOOD

Mercedes-Benz is one of the founding partners of the worldwide “Laureus Sport for Good Foundation”, which was established in 2000. It is the Mercedes-Benz brand’s most important social initiative. Laureus Sport for Good supports children and young people in need through social sports projects, opening up new perspectives and imparting important values such as team spirit, respect and determination. “Change the Game for Kids” is our mission statement which we wish to share with you. In buying a Mercedes-Benz you are supporting the “Laureus Sport for Good” movement.
