

# The GLE Coupé

Mercedes-Benz

Make the best of every ground.

The Mercedes-Benz GLE Coupé combines the physical presence of an SUV with the dynamism and agility of a coupé. Discover the SUV and coupé elements in this unprecedented vehicle.

## Energising comfort and exemplary safety.

Whether in the rush hour, during a long drive at night or on an unfamiliar route – your GLE Coupé noticeably takes the strain out of driving, particularly in stressful situations. It's all down to a concept that makes every journey in a Mercedes-Benz such a safe and exceptional experience: Mercedes-Benz Intelligent Drive. Because the time you spend behind the wheel is your time. Time for relaxation. Time to replenish your energy. So that, first and foremost, you reach your destination safely, but are also relaxed when you get there.

Its design idiom:  
The talk of the town.

The stunning rear-end design of the GLE Coupé is truly a compelling sight: the horizontal emphasis of its lines is particularly evident in the broad light units.

These proportions create a sensation.

A low-slung design and a sweeping roofline create the characteristic silhouette of the GLE Coupé. Elements more usually found in SUVs lend it a particular expressiveness.

## The best of both worlds.

In the interior of the GLE Coupé, sporty coupé design meets generous SUV sense of space. Luxurious extras ensure hallmark Mercedes-Benz exclusivity.

## Active Blind Spot Assist.

The Active Blind Spot Assist radar sensors monitor the hard-to-see areas to either side and at the rear of the vehicle.

## MAGIC VISION CONTROL.

The MAGIC VISION CONTROL adaptive windscreen wiper system maintains optimum visibility while the wipers are in action.

## Parking Package.

The Parking Package makes parking and manoeuvring the Mercedes-Benz GLE Coupé easier and more convenient.

## Head-up Display.

The Head-up Display projects a virtual image with important information directly into the driver's field of vision.

## Shopping spree, golf excursion or long weekend.

With the load compartment of the GLE Coupé, you're well positioned to tackle (virtually) any situation in life. The amount of space it offers is exceptional – especially for a coupé. The accessibility and variability of this section of the car are also worth a particular mention, with multiple options for loading and through-loading.

When the rear seats are fully folded, the Mercedes-Benz GLE Coupé has a luggage compartment capacity of 1720 l.

## Memory Package.

The Memory Package in the Mercedes-Benz GLE Coupé remembers individual settings for up to three different people.

## COMAND Online.

Whether you need the navigation system, the phone, audio, video or the internet: with COMAND Online in your Mercedes-Benz GLE Coupé all media are within sight and easy reach.

## Standard equipment and appointments.

Even the standard specification is a joy to behold: see the details of the standard specification for the exterior of the Mercedes-Benz GLE Coupé.

The interior offers some unusual details that make it all the more compelling: see the details of the standard specification for the interior of the Mercedes-Benz GLE Coupé.

## The AMG Line equipment line.

The AMG Line provides for an even more dynamic look: discover the exciting specification details for the exterior of the Mercedes-Benz GLE Coupé.

The AMG Line conjures up interesting contrasts and a sporty ambience inside the Mercedes-Benz GLE Coupé.

## Night Package.

The Night Package in the Mercedes-Benz GLE Coupé: striking black design elements underline the sporty-expressive character of the vehicle.

## designo Exclusive Package.

The designo Exclusive Package underscores the exclusivity of the vehicle interior with its interplay of porcelain and black. The seats in exclusive diamond quilting, fine designo nappa leather and “designo” badges create a high value appeal.

## 4MATIC.

Excellent driving characteristics on any surface – ensured by 4MATIC permanent all-wheel drive in conjunction with ABS, ESP® and the 4ETS Electronic Traction System. On- or off-road, in wet weather, ice or snow: traction, driving dynamics and driving stability are improved by 4MATIC. And the all-wheel drive system does it without recourse to conventional differential locks. The wheels with insufficient grip are braked in a targeted manner and the drive torque transferred to the wheels with

sufficient traction is increased. With these fast, automatic braking impulses it is possible to achieve pretty much the same effect as with 3 differential locks. The main component of 4MATIC is a single-stage transfer case with an open planetary centre differential, which balances the difference in speed between the axles. The defined 50:50 power distribution between the front and rear axle ensures effortlessly superior, predictable handling characteristics at all times.

## DYNAMIC SELECT.

A comfortable, sporty, winter-optimised or completely individual vehicle setting can be called up conveniently using the DYNAMIC SELECT controller in the centre console. Parameters such as engine, transmission, suspension and steering characteristics are modified in accordance with the driving mode chosen. The well-balanced, fuel-efficient “Comfort” mode is the standard setting. The “Sport” driving mode, with a more direct steering characteristic curve, a sportier damping setting and modified shift points, offers greater agility and dynamism. The “Slippery” driving mode delivers optimised handling on iced-over and snow-covered road surfaces. This is made possible by reduced engine

and transmission settings which ensure the best possible propulsion. Improved ESP® regulation and increased metering capability of the drive forces contribute towards greater drive stability. The “Individual” driving mode enables drivers to adjust the various parameters – from the steering and drivetrain to the suspension – to suit their own requirements. The driving mode last selected remains active when the vehicle is restarted (for a period of approx. 4 hours), after which the system reverts to “Comfort” mode.

# Refinement unleashed.

The Mercedes-AMG GLE Coupé.

Every Mercedes-AMG is a masterpiece in its own right, with an unmistakable character. What unites our performance vehicles and sports cars is their irrepressible sporting spirit. Their passion for top performance. It is generated at the point where engineering skill meets a very special attitude: the spirit of AMG. We believe that you have to keep on challenging limits in order to achieve new goals. We accept nothing as a given. Because limits are imposed by people, and it's also people who can overcome them. It's this attitude that enables us to achieve outstanding performance for the race track – and for the road.

Welcome to the world of AMG.

DRIVING PERFORMANCE

## Technical data.

	Diesel engine	Petrol engines
	GLE Coupe 350 BlueTEC	GLE Coupe 400 4MATIC
Displacement (cc)	2.987 cc / V6	2.996 cc / V6
Rated output <sup>1</sup> (kW [hp] at rpm)	190 [258]/3.400 Kw [hp] at rpm	245 [333] / 5.250-6.000 kW at rpm
Fuel consumption <sup>4</sup> (l/100 km)	7,8-7,81/100 km [2]	10,5-10,51/100 km [2]

The best for the engine:  
Mercedes-Benz genuine engine oils.

<sup>1</sup> Information about the rated output according to Regulation (EC) No. 715/2007 in the currently valid version. <sup>2</sup> Available temporarily. <sup>3</sup> Electronically governed. <sup>4</sup> The stated figures were determined according to the prescribed measurement method. They constitute the "NEDC CO<sub>2</sub> figures" pursuant to Article 2 No. 1 Implementing Regulation (EU) 2017/1153. Fuel consumption figures have been calculated on this basis. More information about the official fuel consumption and the official specific CO<sub>2</sub> emissions of new passenger cars is available in the publication entitled "Leitfaden über den Kraftstoffverbrauch, die CO<sub>2</sub>-Emissionen und den Stromverbrauch neuer Personenkraftwagen" ["Guidelines concerning the fuel consumption, CO<sub>2</sub> emissions and electricity consumption of new passenger cars"], available free of charge at all retailers and from Deutsche Automobil Treuhand GmbH (www.dat.de). The figures are not based on an individual vehicle and do not constitute part of the product offer; they are provided solely for purposes of comparison between different vehicle models. The figures will vary according to the optional equipment selected. <sup>5</sup> Information only valid within the European Union. May vary from country to country. <sup>6</sup> Determined on the basis of the measured CO<sub>2</sub> emissions, taking into consideration the vehicle mass. Only valid for Germany. For more technical data, please visit [www.mercedes-benz.com](http://www.mercedes-benz.com)

## Dimensions.

All figures in millimetres. The illustrated dimensions are mean values. They are valid for vehicles in basic specification and in unladen condition.

# SPORT — F O R — GOOD

Mercedes-Benz is one of the founding partners of the worldwide “Laureus Sport for Good Foundation”, which was established in 2000. It is the Mercedes-Benz brand’s most important social initiative. Laureus Sport for Good supports children and young people in need through social sports projects, opening up new perspectives and imparting important values such as team spirit, respect and determination. “Change the Game for Kids” is our mission statement which we wish to share with you. In buying a Mercedes-Benz you are supporting the “Laureus Sport for Good” movement.
