Sport Utility Vehicle

Mercedes-Benz

Energising comfort and exemplary safety.

In rush hour, during a long drive at night or on an unfamiliar route – your GLE makes driving noticeably easier, particularly in stressful situations. It's all down to a concept that makes every journey in a Mercedes-Benz such a safe and exceptional experience: Mercedes-Benz Intelligent Drive. Because the time you spend behind the wheel is your time. Time for relaxation. Time to replenish your energy. So that, first and foremost, you reach your destination safely, but are also relaxed when you get there.

On-road or off-road,
summer or winter.

Its impressive power makes it the perfect towing vehicle. And its independence is infectious. Look forward to little escapes and big adventures – and every moment in between.

Discover the great comfort of the Mercedes-Benz GLE SUV.

Inside, the dynamic off-roader is designed for your comfort, making long distances a breeze. Take a look at an interior that makes every journey one to savour.

Driving pleasure is an attitude.

Depending on the equipment level, the DYNAMIC SELECT controller in the centre console offers a choice of up to six different drive programs. Comfortable, sporty, optimised for winter conditions, for off-road use or according to individual preferences: parameters such as engine, transmission and steering characteristics are modified in accordance with the selected drive program (only in conjunction with AIRMATIC package).

High sitting position. Low stress level.

From the moment you step inside the GLE, the off-roader's hallmark raised seat position quite literally offers the highest level of comfort. Power-adjustable seats for the driver and front passenger provide ideal support and excellent comfort on long journeys – which can be further enhanced with seat climate control or multicontour seats featuring massage function, luxury head restraints and seat cushion length adjustment.

LED Intelligent Light System.

To ensure the best possible vision, the LED Intelligent Light System adapts automatically to the prevailing weather, light and driving conditions. Apart from its striking looks, the LED technology impresses with more safety at night, light distribution according to the given situation, a light colour akin to daylight and less dazzle.

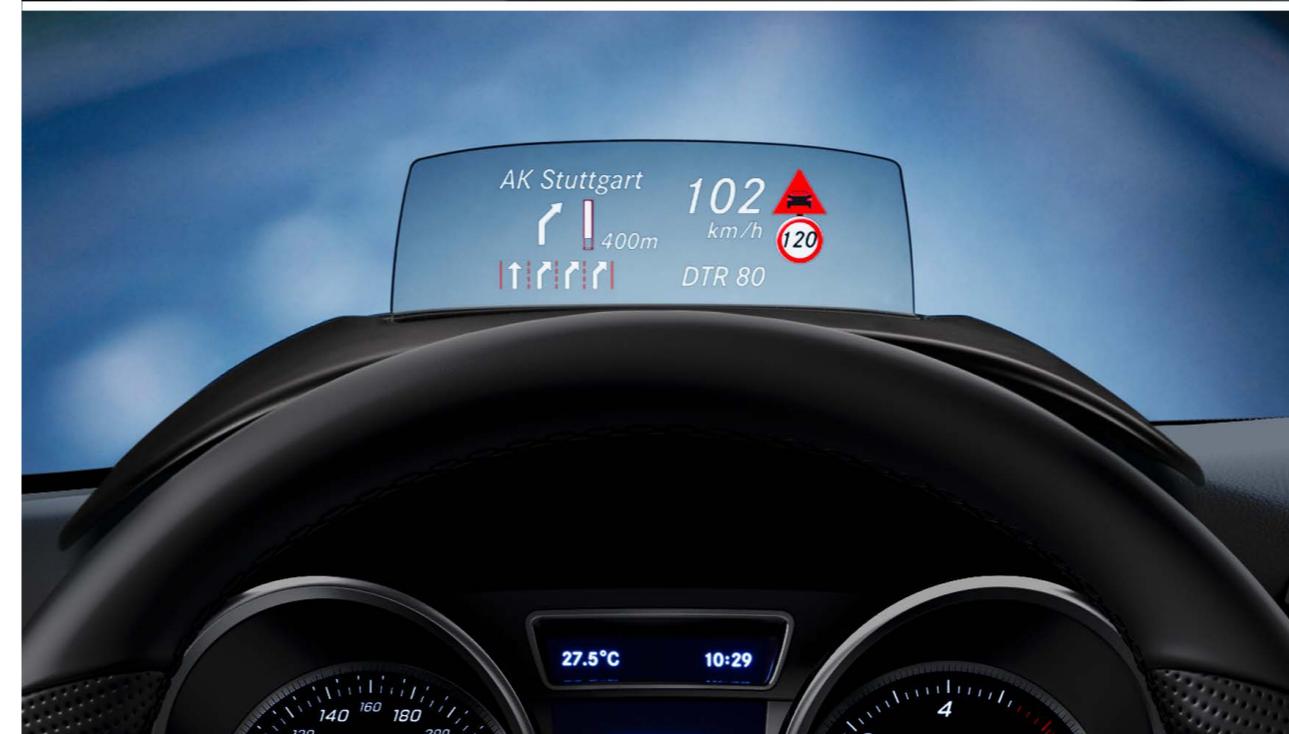

MAGIC VISION CONTROL.

Washer fluid is sprayed directly ahead of the wiper blades and wiped away immediately. The heated wiper blades effectively reduce the risk of icing up.

Parking package.

Active Parking Assist with PARKTRONIC makes it easier to find a parking space and to enter and exit parallel and end-on parking spaces, as well as to exit parallel parking spaces. If the vehicle is travelling at a speed below 30 km/h, the system indicates with a "P" symbol and a direction arrow on the multifunction display of the instrument cluster that it has detected a parking space. Once the driver engages reverse gear and confirms the suggested parking space, Active Parking Assist with PARKTRONIC carries out the steering manoeuvre by itself up to a speed of 10 km/h. In this process, the driver needs to operate the accelerator and brake pedal; parking is completed in a maximum of seven moves.

Head-up display.

Keep an overview of key driver information without taking your eyes off the road – thanks to the head-up display. It projects a virtual image into the driver's field of vision, which appears to float around 2 metres in front of the driver above the engine bonnet. The scope of functions is partially dependent on the selected equipment. The high-resolution display is in colour.

Home from home.

Take your seat in a familiar position: above it all. Surrounded by outstanding comfort in the impressively appointed GLE cockpit, you can feel at home on every journey. Highlights include the redesigned upper section of the instrument panel featuring the media display and the 3-spoke multifunction sports steering wheel. Optionally, the dashboard can be covered in ARTICO man-made leather.

The sky's the limit.

The panoramic sliding sunroof creates a special sense of space and freedom. The large expanse of glass lets daylight in and, at night, provides a view of the stars. The system consists of a fixed panoramic glass rear section and an electrically operated sliding glass front section for ventilation of the interior as required.

Plenty of space for everyone. And everything you can think of.

With the largest shoulder width in its segment and space for three child seats, the rear of the GLE is hugely comfortable. To cater for your comfort requirements and the amount of luggage space you need, the seat backrests can be adjusted in ten stages, tilting forwards by 12° and back by 6°. The armrests, which feature a cup holder, and the optional seat heaters make any journey a joy.

COMAND Online.

Navigation, telephone, audio, video, internet – with the COMAND Online control and display system the driver keeps these and many other functions in sight and under control. Information is shown in high-resolution and in colour on the large 20.3 cm media display. Operation via touchpad is simple and intuitive. It serves as a full-featured means of entering data and commands in addition to the existing COMAND controller and LINGUATRONIC, and features multi-touch control using gestures with one or several fingers.

The EXCLUSIVE equipment line.

The select equipment and appointments of this line create a style-defining interior that delivers an exciting new take on the concept of luxury. The features include comfort seats with an exclusive upholstery layout in leather, 5 attractive colour concepts and coloured ambient lighting.

Night package.

The Night package is based on the AMG Line exterior and features striking, black design elements to underline the vehicle's sporty and expressive character. The louvre in the radiator grille and the simulated underguard at the front and rear are finished in high-gloss black, while the tailpipe trim is in chrome. Further highlights are the AMG 5-twin-spoke light-alloy wheels and black exterior mirrors as well as the dark-tinted heat-insulating glass of the rear door windows and rear window. The roof rails, window surrounds and waistline trim strip, all in black, round off the Night package.

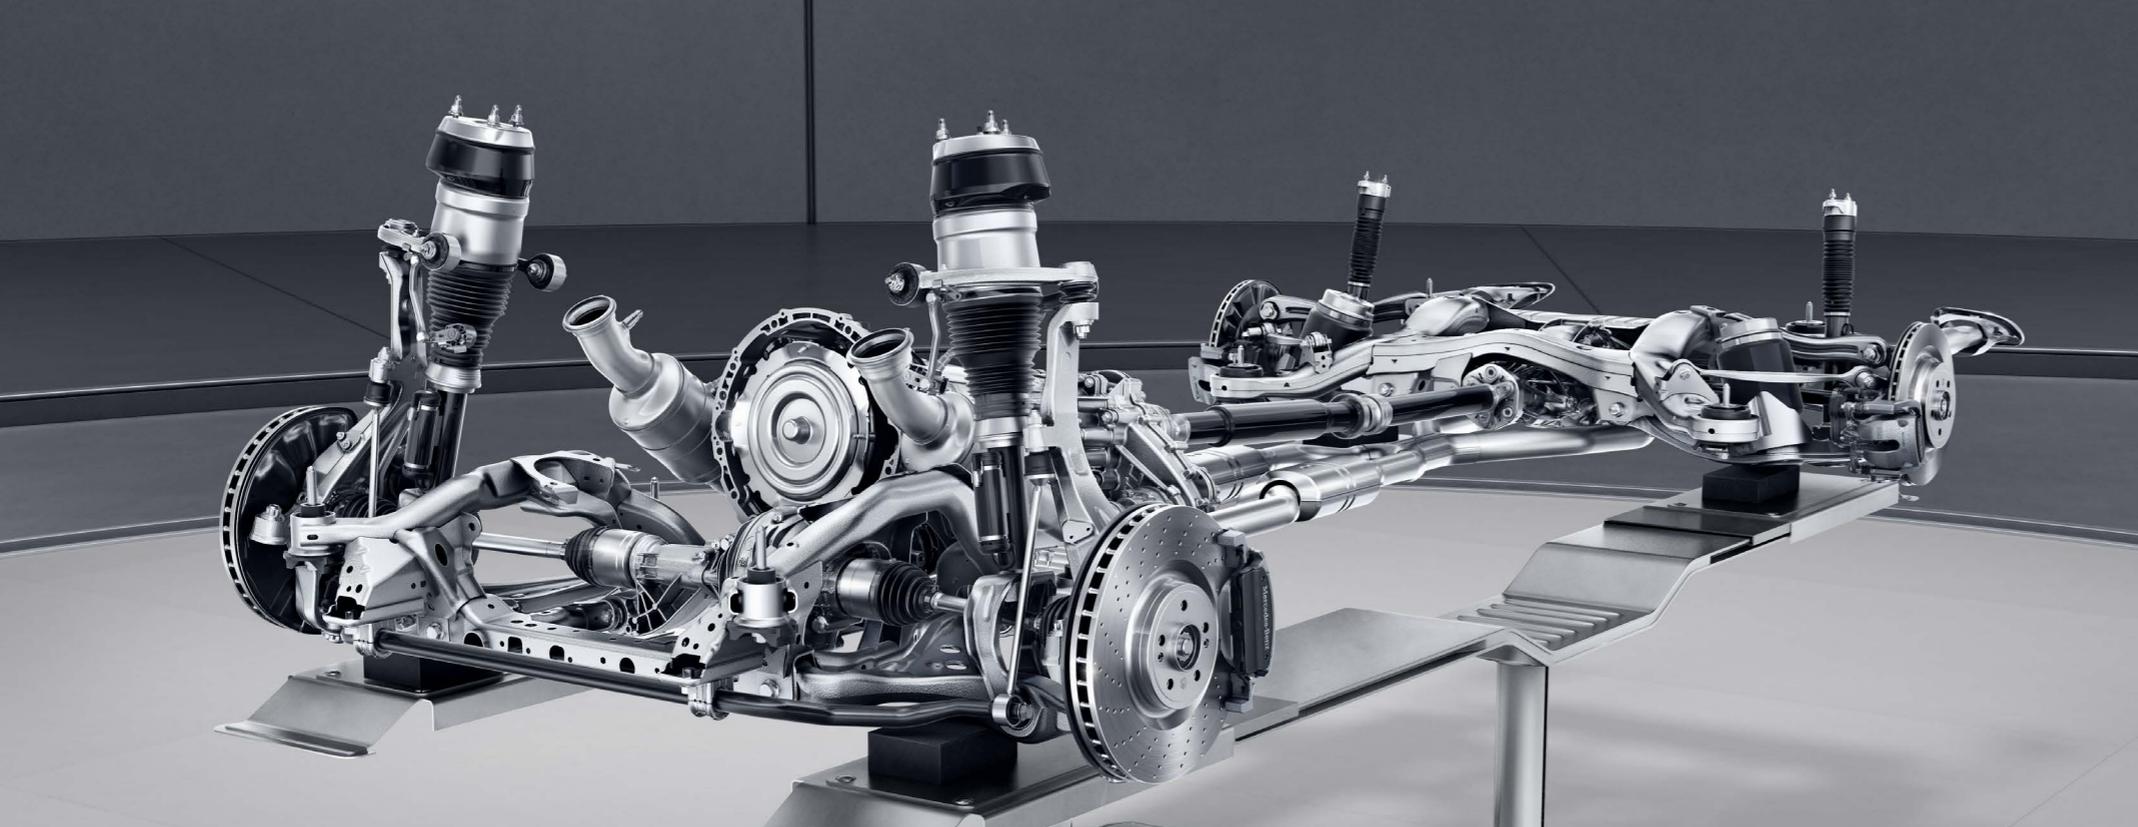

The AMG Line.

This equipment line lends the exterior an even more dynamic and athletic character – from the striking AMG bodystyling with specific front and rear apron to the 50.8 cm (20-inch) AMG light-alloy wheels.

This equipment line lends the interior added sportiness and exclusivity that you can see and feel. The highlights include sports seats in ARTICO man-made leather, the multifunction steering wheel and stainless steel sports pedals.

4MATIC all-wheel drive.

Off-road or on-road, in wet, snow or ice: traction, driving dynamics and driving stability are improved in combination with ABS, ESP® and the electronic traction system 4ETS. And the all-wheel-drive system does without conventional differential locks. The wheels with insufficient grip are braked in a targeted manner and the drive torque transferred to the wheels with sufficient traction is increased. With these rapid, automatic braking impulses virtually the same effect can be achieved as with three differential locks.

The main component of 4MATIC is a single-stage transfer case with an open planetary centre differential, which balances the difference in speed between the axles. The defined 50:50 power distribution between front and rear axle guarantees supremely assured, predictable handling characteristics.

DYNAMIC SELECT.

With the GLE you can enjoy every metre on the way to your destination. You can use the DYNAMIC SELECT controller to adapt its handling to your wishes: comfortable, sporty, optimised for winter conditions, for off-road use or according to your individual preferences. The optional Off-Road Engineering package's "Offroad Plus" drive program provides the optimum settings for driving off the beaten track. Its low-range gearbox facilitates slow and better-paced off-road driving, with a high level of traction.

Refinement unleashed.

The Mercedes-AMG GLE.

Every Mercedes-AMG is a masterpiece in its own right, with an unmistakable character. What unites our performance vehicles and sports cars is their irrepressible sporting spirit. Their passion for top performance. This arises where engineering prowess meets a very special attitude: the spirit of AMG. We believe that you have to keep on challenging limits in order to achieve new goals. We accept nothing as a given. Because limits are imposed by people, and it's also people who can overcome them. It is this attitude that enables us to achieve outstanding performance for the race track – and for the road.

Welcome to the world of AMG.

AMG
DRIVING PERFORMANCE

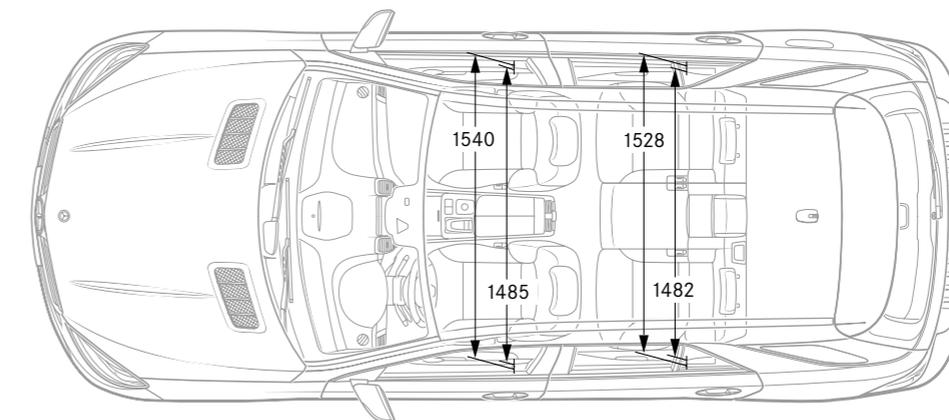

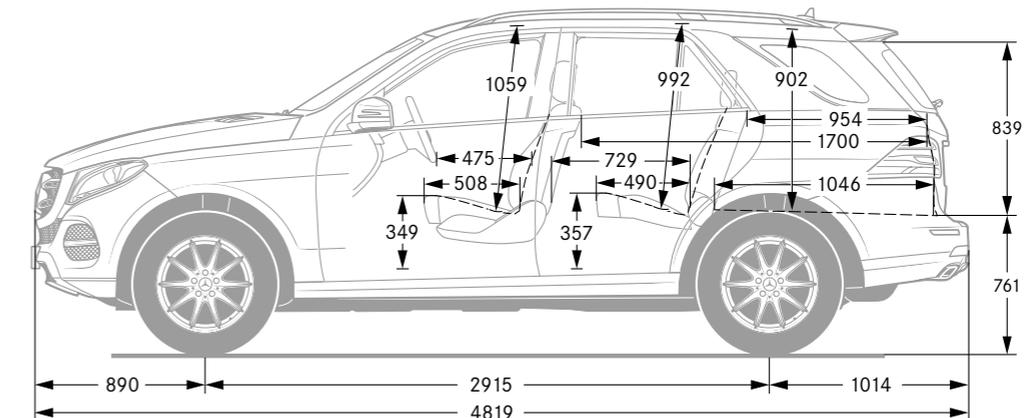

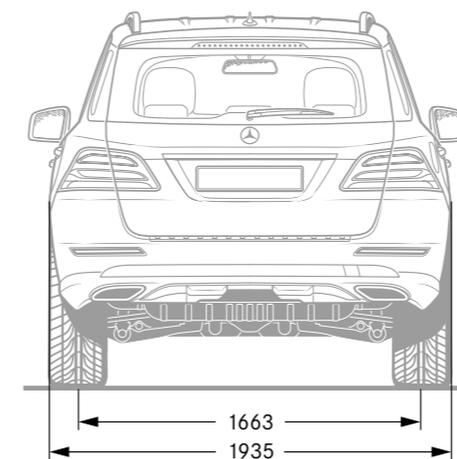

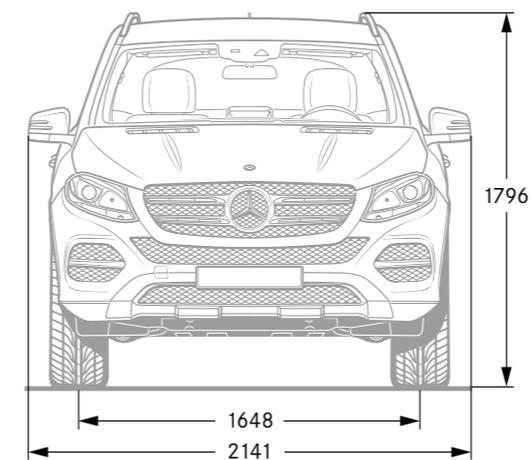

Technical data.

	Diesel engines
	GLE 350 d 4MATIC
Displacement (cc)	2.987 CC / V6
Rated output ¹ (kW [hp] at rpm)	190 [258] / 3.400 kW [hp] at rpm
Fuel consumption ⁴ (l/100 km)	190 [258] / 3.400 kW [hp] at rpm

The best for the engine:
Mercedes-Benz genuine engine oils.

¹ Information about the rated output according to Directive (EC) No. 715/2007 in the currently valid version. ² Available temporarily. ³ Electronically limited. ⁴ The stated figures were determined according to the prescribed measurement method. They constitute the "NEDC CO₂ figures" pursuant to Article 2 No. 1 of Implementing Regulation (EU) 2017/1153. Fuel consumption figures have been calculated on this basis. More information about the official fuel consumption and the official specific CO₂ emissions of new passenger cars is available in the publication entitled "Leitfaden über den Kraftstoffverbrauch, die CO₂-Emissionen und den Stromverbrauch neuer Personenkraftwagen" ["Guidelines concerning the fuel consumption, CO₂ emissions and electricity consumption of new passenger cars"], available free of charge at all retailers and from Deutsche Automobil Treuhand GmbH (www.dat.de). The figures are not based on an individual vehicle and do not constitute part of the product offer; they are provided solely for purposes of comparison between different vehicle models. The figures vary according to the selected optional equipment. ⁵ Information only valid within the European Union. May vary from country to country. ⁶ Determined on the basis of the measured CO₂ emissions with due consideration of the vehicle mass. Only valid for Germany. For more technical data, please visit www.mercedes-benz.com

Dimensions.

All figures in millimetres. The illustrated dimensions are mean values. They are valid for vehicles in basic specification and in unladen condition.

SPORT — F O R — GOOD

Mercedes-Benz is one of the founding partners of the worldwide “Laureus Sport for Good Foundation”, which was established in 2000. It is the Mercedes-Benz brand’s most important social initiative. Laureus Sport for Good supports children and young people in need through social sports projects, opening up new perspectives and imparting important values such as team spirit, respect and determination. “Change the Game for Kids” is our mission statement which we wish to share with you. In buying a Mercedes-Benz you are supporting the “Laureus Sport for Good” movement.

Please note: changes may have been made to the product since going to press (13.07.2018). The manufacturer reserves the right to make changes to the design, form, colour and the product specification during the delivery period, provided these changes, while taking into account the interests of the vendor, can be deemed reasonable with respect to the purchaser. Where the vendor or the manufacturer uses symbols or numbers to describe an order or the subject of an order, no rights may be derived solely from these. The illustrations may show accessories and items of optional equipment which are not part of standard specification. This brochure is distributed internationally. It provides a general indication of the range of models, features, optional extras and/or colours

available in various countries.

Some of the models, features, optional extras and/or colours shown may not be available in your country or may only be available in a different specification. Additionally some models, features, optional extras and/or colours may only be available in combination with others. For current and more specific information in relation to the range of models, features, optional extras and/or colours available in your country, and their pricing, you should contact your nearest authorised Mercedes-Benz Passenger Car Dealer.
